# Notarify in a nutshell

- Fondati nel 2018, partecipi patiti da CRIF, Forbes ed altre importanti aziende
- 5000+ Utenti
- Mission: Notarify aiuta le organizzazioni a certificare, garantire l'integrità e salvaguardare dati, documenti, firme e identità, ottenendo il pieno controllo e proteggendo dalle frodi
- Vision: "The Google of Blockchain"

## PARTNERS

# Our Project

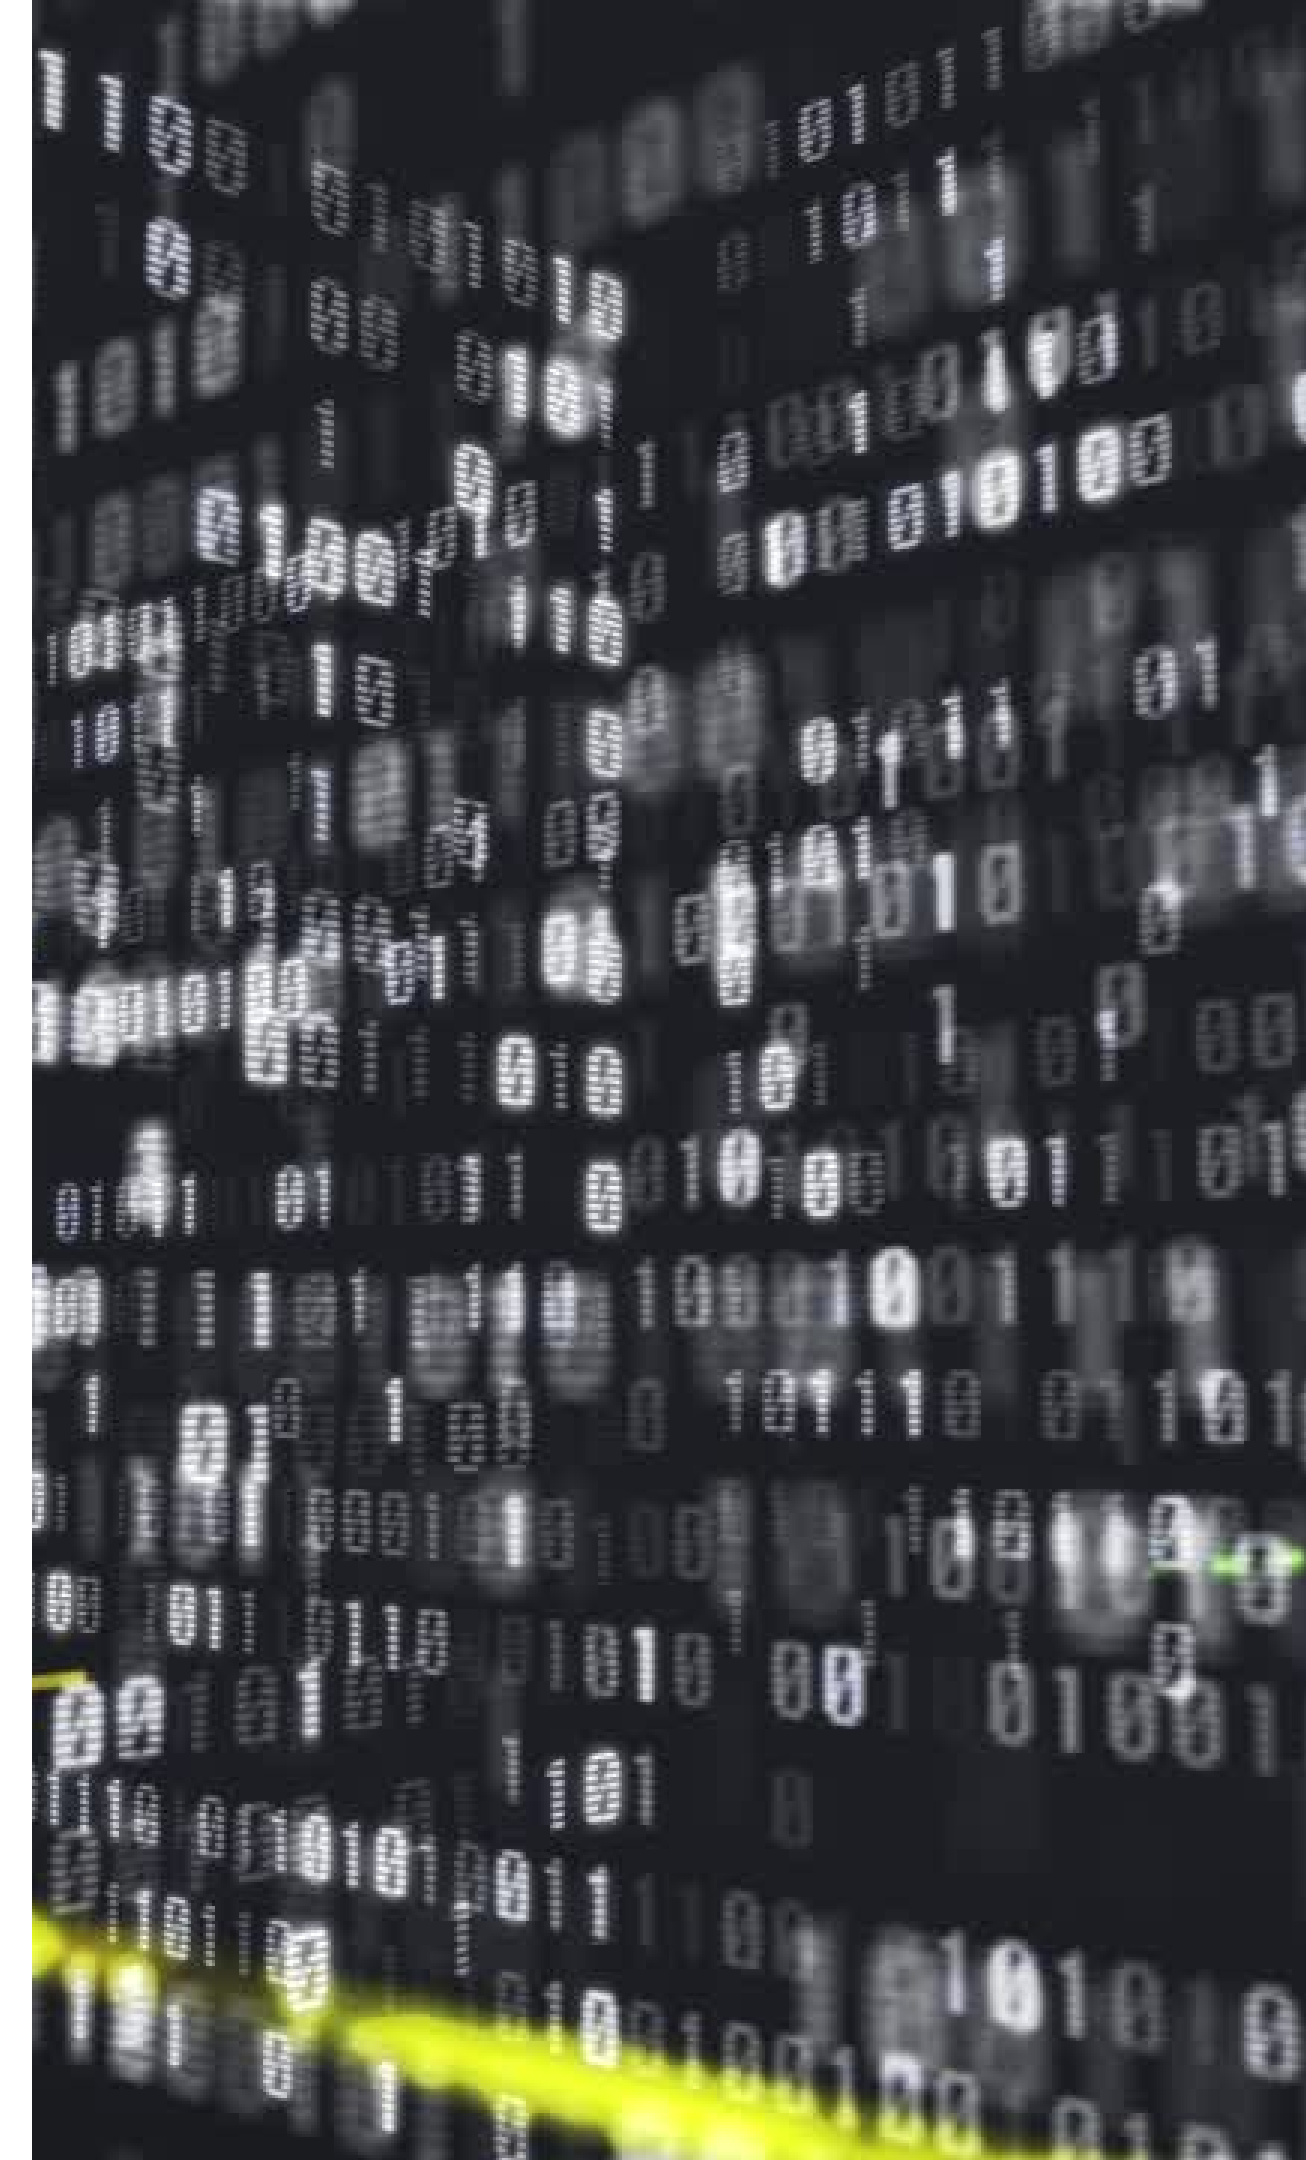

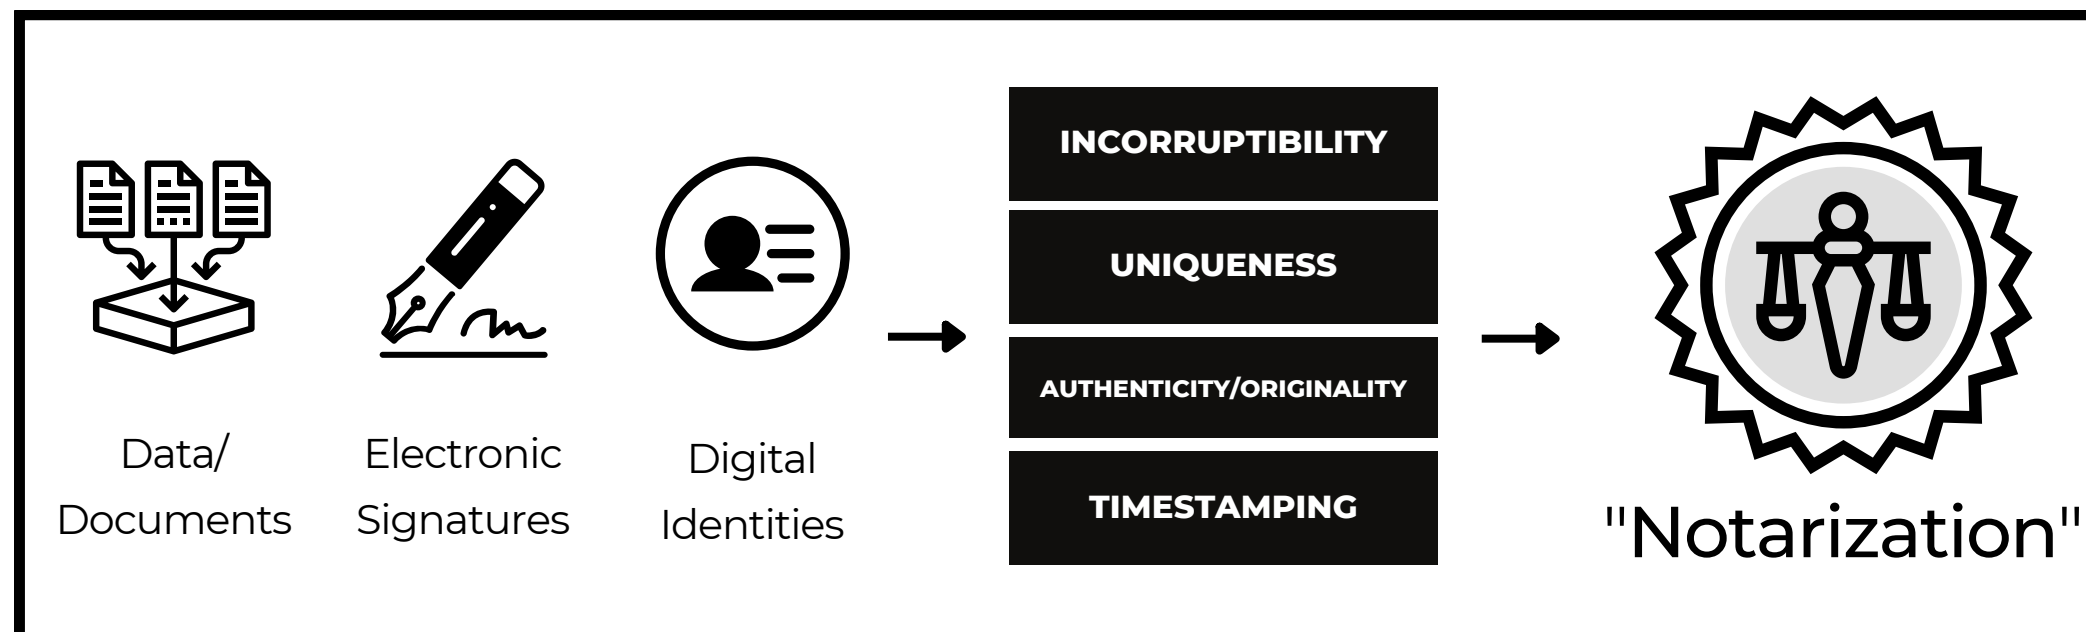

Blockchain è un registro eterno, immutabile, indelebile.

La "notarizzazione" è la sua principale funzione (e l'unica realmente interessante). Tuttavia è stata disegnata per le transazioni di denaro.

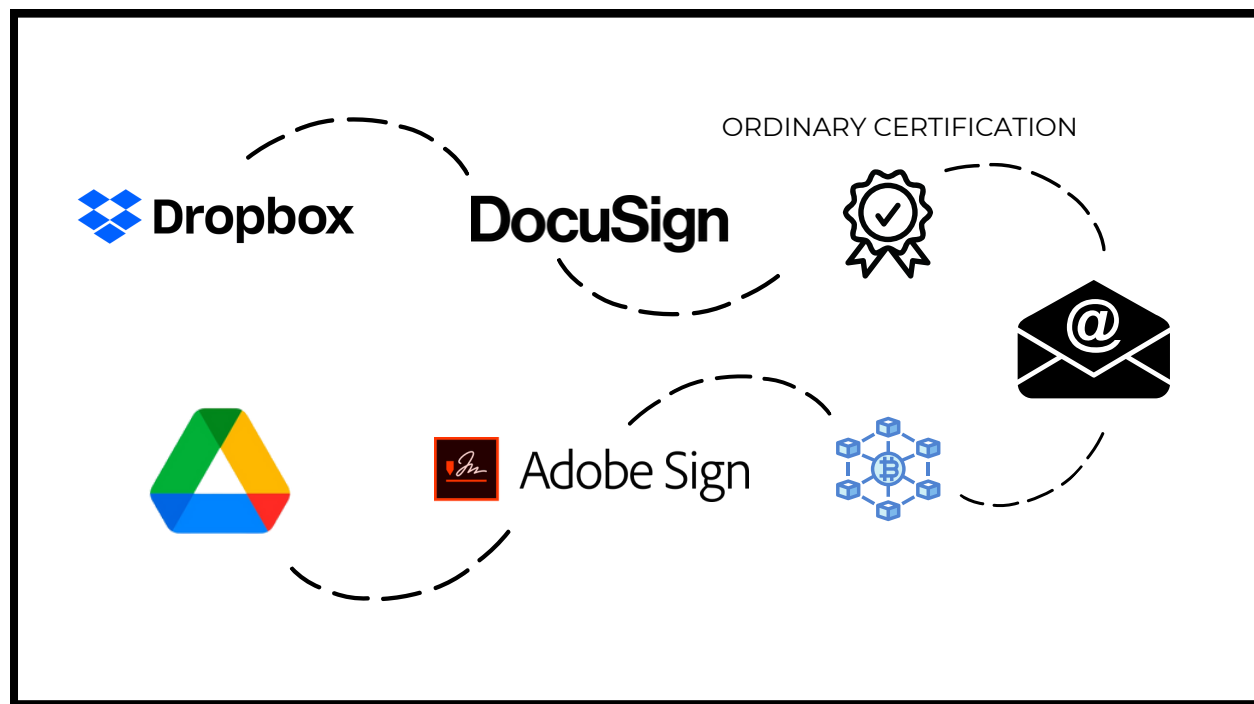

La nostra intuizione

# Value Proposition

**Lo stato dell'arte: Piattaforma in abbonamento "all-in-one" e completa per l'autenticazione e la gestione di documenti e firme. Diamo credibilità ai tuoi file.**

**NOTARIFY**  
BLOCKCHAIN NEVER LIES

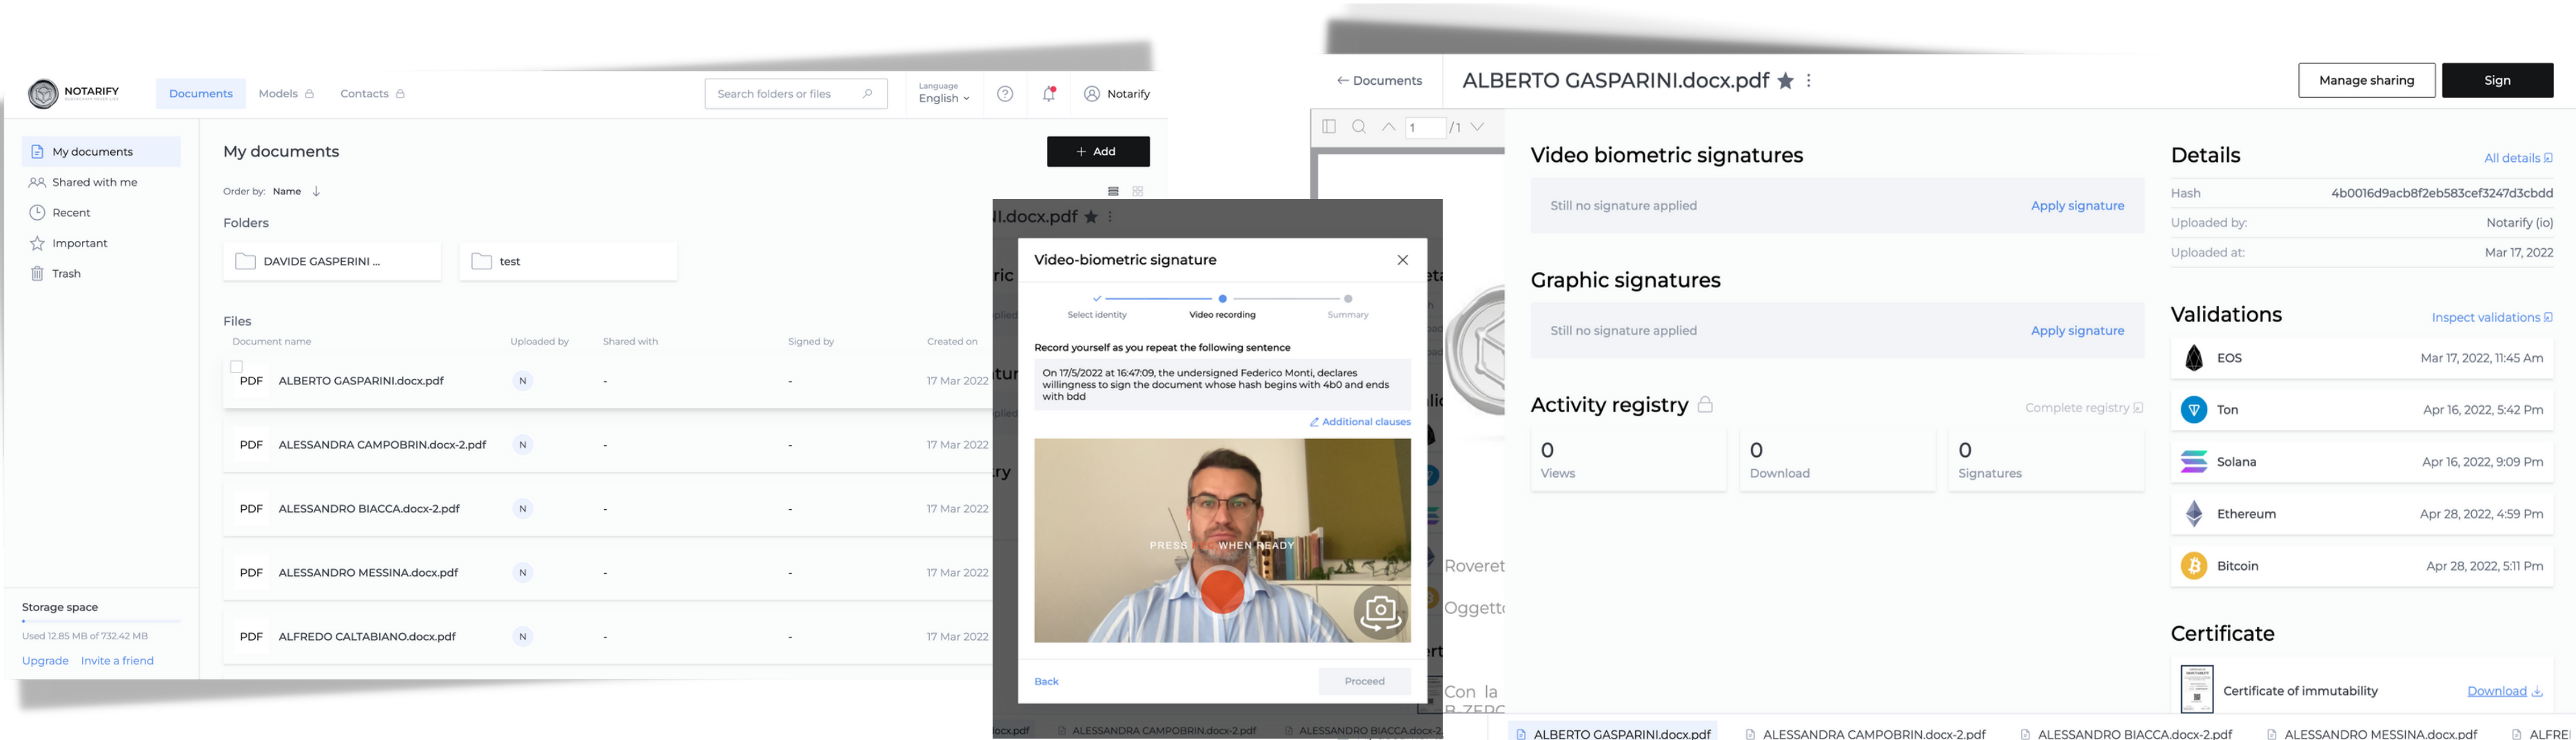

The screenshot displays the Notarify web interface. It includes sections for "Video biometric signatures", "Graphic signatures", and "Activity registry". The "Activity registry" shows 77 views, 19 downloads, and 5 signatures. A "Details" panel on the right provides information about the document, including its hash, upload date, and validation status across various blockchain networks like EOS, Ton, Solana, Ethereum, and Bitcoin.

1. Certification without borders and expiring date
2. Web3 as easy as Web2
3. Predetermined and affordable costs

# Prodotto: Notarify3

Gestione facile di documenti, firme, identità con autenticazione automatica

The screenshot displays the Notarify3 web application interface. On the left, a sidebar shows navigation options like 'My documents', 'Shared with me', 'Recent', 'Important', and 'Trash'. The main area is titled 'My documents' and lists several PDF files, including 'ALBERTO GASPARINI.docx.pdf'. A modal window titled 'Video-biometric signature' is overlaid, showing a video recording interface with a 'PRESS WHEN READY' prompt and a 'Proceed' button. To the right, a document viewer for 'ALBERTO GASPARINI.docx.pdf' is shown, featuring options for 'Video biometric signatures' and 'Graphic signatures', both with 'Apply signature' buttons. Below these are 'Activity registry' statistics (0 Views, 0 Download, 0 Signatures) and a 'Details' section with a hash and upload information. A 'Validations' section lists various cryptocurrencies like EOS, Ton, Solana, Ethereum, and Bitcoin with their respective validation times. At the bottom, a 'Certificate' section offers a 'Download' link for the 'Certificate of immutability'.

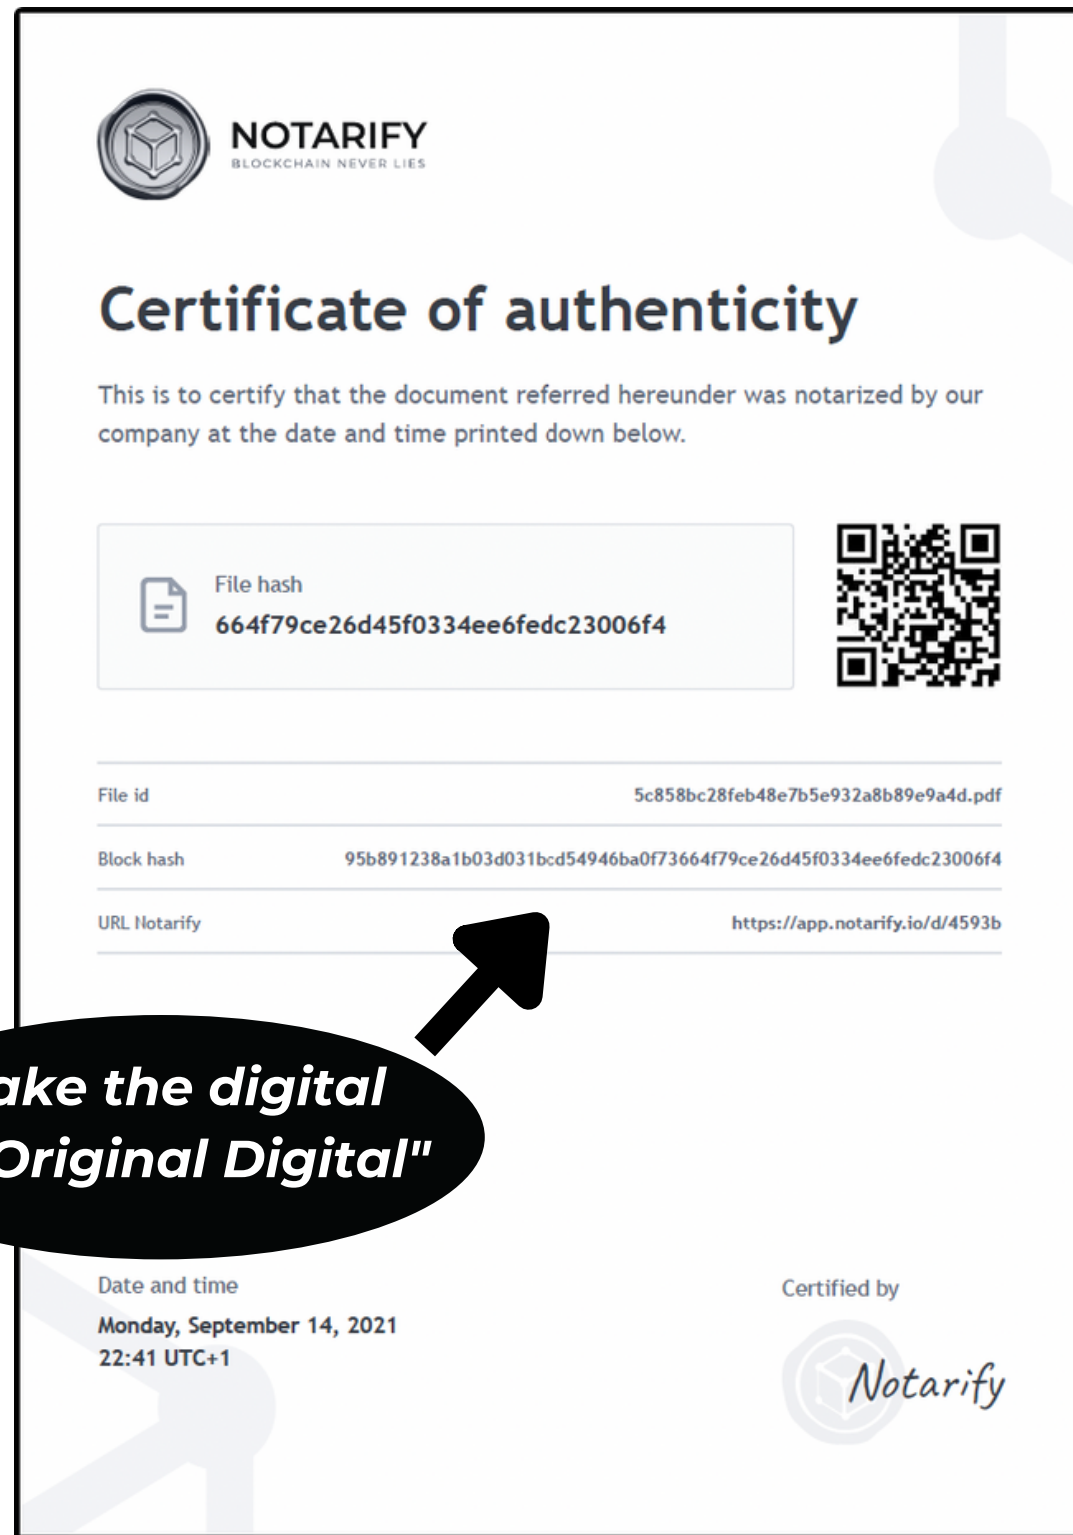

- **RISPARMIO**
- **TUTELA DEI DOCUMENTI**
- **ASSICURAZIONE CONTRO CONTESTAZIONI E FRODI**
- **PROTEZIONE PROPRIETA' INTELLETTUALE (KNOW-HOW)**

DIGITAL TRANSFORMATION MARKET

# 2025

PWC, in a recent report, estimates that Blockchain has the potential to add 1.76trn to the global economy by 2030.

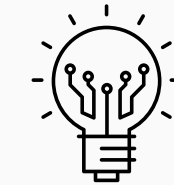

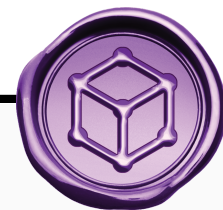

# Why are we different?

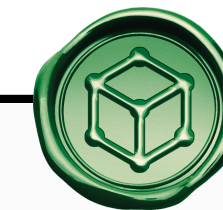

## Company/Business Model

1. Notarify non scade mai: Certificazione eterna
2. Nessun confine: effetto probatorio mondiale
3. Membri del team esperti di Blockchain dal 2012, autori di diversi standard di settore
4. Possibilità di aggiungere strati di "Blockchain ibrida" gestiti da agenzie governative
5. Possibilità di creare nuovi servizi redditizi con una politica di condivisione dei ricavi
6. Leader globale nel settore in 3-5 anni

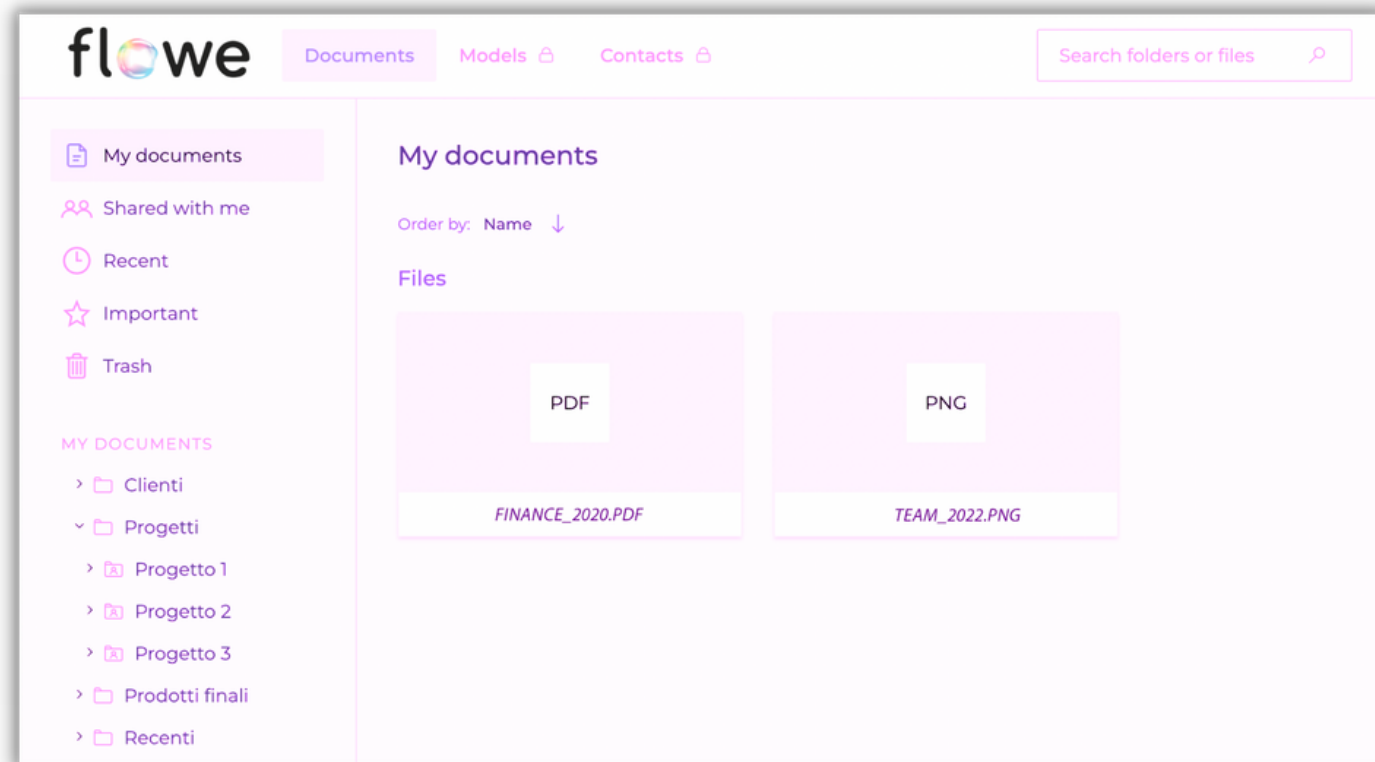

## Technology

1. Web3 facile come Web2
2. Soluzioni all-in-one
3. Siamo i più veloci, i più sicuri e scalabili, con costi certi/programmabili.
4. Sostenibili dal punto di vista energetico.
5. Soluzioni plug-and-play che non modificano i processi delle organizzazioni, pur aggiungendo nuovi livelli di certificazione e cybersecurity.
